On the trail technology policy: We are practicing leave no trace, take only pictures. Along with these principles we are asking students to use this experience to connect with nature and the people with them. They will be participating in journaling and other leadership and reflective activities. The expectation is that students will not be using their phones during the hike. Cell service in some locations is also unreliable so we ask that you are flexible with your student if asking them check in with you in the evenings. If there is an issue that warrants leaving the trail for deviating from the plan school and parents will be notified immediately. Please feel free to call or text the chaperones at any time if you have concerns.

Meeting Updates Curriculum Subcommittee and Middle School Task Force

At this time, we have not yet scheduled the next meeting of the Curriculum Subcommittee.

The next meeting of Middle School Task Force is Wednesday, May 2, 2018, at 3:15 PM in the Mount Everett library. Members are returning feedback forms about their participation next year with areas of interest for the development of the reconfiguration plan for grades 6-7-8.

Instructional Materials Updates for SY 2018-19

At the start of school, our elementary schools will be in Year 4 of use of Go Math! in grades K-6. Houghton Mifflin Harcourt (HMH) publishes and supports this program. We have had a three-year contract that expired at the end of this school year. We elected to extend this programs use for another year with the option to negotiate another multi-year agreement with HMH during the course of the coming year. Materials will be purchased in July 2018 and include consumable student editions and access to online, interactive materials for teachers and students.

Similarly, our middle school will be in Year 3 of use of Go Math! in grades 7-8 in fall 2018. This HMH series aligns the middle level format with the elementary program. We are currently in the final year of three-year contract that allowed us to prepay for all materials, including student editions and online subscriptions. HMH provided onsite, implementation support to middle level teachers for this program this past fall.

New next year is the introduction of three HMH textbooks for high-school level Algebra 1, Algebra 2 and Geometry. This one-time purchase of traditional textbooks includes six-year access to online subscriptions for students. These will be purchased this summer to ensure distribution to students at the start of school. I recommend that we contract HMH to provide onsite, implementation support to high school teacher early next year.

For 2017-18, we introduced Empowering Writers (EW) in grades K-6 as an aligned writing instruction program. These resources also support close reading of fiction and nonfiction texts. Classroom teachers in grades K-1 used Getting Ready to Write, while their colleagues in grades 2-6 used Essential Guides. Next year, teachers will add Reading, Writing and Art Connection guides to their work in grades K-1, and those in grades 2-6 will supplement with Guides to Expository and Opinion Writing. Empowering Writers has offered webinars to our teachers last year and throughout this year for implementation support. All materials are currently in teachers’ hands. Additional planning time is scheduled for our last professional development session Friday, May 25, 2018, to ensure a smooth start of next fall. Of note, a similar EW middle-level program is available and worthy of review by the Middle School Task Force.

Respectfully submitted,

Kerry Burke
