5. **New Business**
   a. Report on Meeting with Adam Hinds – Vito Valentini, Special Legislative Liaison to SBRSD School Committee

      Mr. Stewart introduced Mr. Valentini, who had met with Senator Adam Hinds in July regarding the inadequacies of the formulas used in the Chapter 70 and Foundation Budget with regards to SBRSD. (Handouts attached)

      The case he made was that the foundation budget uses as a primary determining factor an assumed student teacher ratio. For FY17 they assumed 22 children for Elementary, 25 for Middle School and 17 for High School. A district of 750 or less will not be able to come near these numbers.
Senator Hinds said he would get back to us in September. Mr. Valentini also said he was going to follow up with a letter to Senator Hinds and meet with him again.

Discussion followed.

Ms. Silvers suggested that Mr. Valentini set up a meeting with the Superintendent and Chair of the School Committee to develop a plan on taking the next steps.

*Carl Stewart moved that item 5d FY16 Audit Report be next on the agenda. Ms. Lartigue seconded the motion. There was no discussion and the motion was unanimously approved.*

d. FY16 Audit-Scanlon & Associates

Mr. Thomas Scanlon, Jr., senior partner at Scanlon & Associates, presented highlights of the FY 2016 District audit which was conducted by his firm. He noted items in need of improvement, which included the following:

- Mr. Scanlon reported that the School Business Administrator reviewed all of the capital and grant accounts prior to closing the fiscal year 2016 books. As part of that process an analysis of the capital project transactions and energy grant was completed, which was used in making correcting entries in the general ledger. The district has taken significant steps and implemented procedures to improve the financial reporting of the District.

- Student Activity Funds: The district maintains student activity funds for its various school activities. Adjustments were made to the student activity ledger, and the District has appropriated and transferred from the general fund to the student activity fund $21,160 to eliminate the variance between the general ledger and the student activity ledger. The recommendation was that the Management of the District review the new guidance issued by DESE and determine compliance with the student activity guidelines and MGL. Also, the student activity fund should be audited internally annually, with an outside independent audit done once every 3 years.

- School Lunch: The school lunch fund incurred an operating loss of $45,643 for fiscal year 2015. Based on the prior year’s audit the district has reviewed the school lunch program and has taken action during FY16. The District filed all the federal and state reimbursement requests on a timely basis. The District adopted a charge policy. The verification report for school lunch applications was filed timely with the State. The District has implemented procedures to monitor and review the school lunch program. Recommendation is that the District continue to monitor the school lunch program to ensure the program is operating properly and will not have a deficit at year-end.

Carl Stewart asked if it would be okay to submit questions through Chris Regan regarding the audit. Mr. Sears recommended a change on page 22 to reflect: as last revised on May 20, 2010.

b. Approval/Signing of Documentation for a Bond Anticipation Note – Chris Regan

Ms. Regan informed the School Committee that because the MSBA was not able to review the project on time to get a bond issued, we had to reissue a bond anticipation note for $4,125,000.00.
This was put out to bid and Eastern Bank got the bid at a 1.25% interest rate. The Chairman and Clerk of the School Committee is required to sign this document. (Copy attached)

c. Use of Stabilization Funds for Boiler at New Marlborough - $35,000 (Report Attached)
Chris Regan explained that $37,000 was deposited into the Stabilization Fund in FY11 for the purpose of replacing the boiler at New Marlborough Central. Chris Regan informed the school committee that this would require a 2/3 vote of total members.

Ms. Lartigue made a motion to use the $35,000 deposited into the stabilization fund to replace the boiler at New Marlborough Central School. Mr. Law seconded the motion.

Ms. Silvers brought up the topic of ownership of buildings. Chris Regan reported that we gave the Town of Monterey $10,000 (matching funds) and the Town of Egremont $25,000 (matching funds). Further discussion ensued on whether the buildings are the responsibility of the towns or the district and whether the district should spend money as such. The district has historically invested money in the outlying schools building projects. Ms. Lartigue stated that the district needs to redo the regional agreement to make it clear for everyone.

Ms. Silver stated that Monterey and Egremont have both matched the funds given by the district and that it was a question of equity.
Superintendent Regubuto stated that we have put money into the stabilization for this purpose and we need to vote to take it out of stabilization. It is critically important to look at equity across the board.
Dan Weston, Building Leader at New Marlborough and Teacher, introduced himself to the school committee. He reiterated that the boiler at New Marlborough Central needed to be replaced. When he spoke with Fred Finkle, the goal was to get the job done over the summer, before the start of school.
Mr. Sears stated that when the Regional Agreement was first developed the plan at the time was that the outlying schools would not be open long and that they would be consolidated here at the Sheffield campus.
Ms. Silvers reiterated the question of equity.
There was further discussion on the clarification of the 2/3 vote required to approve the motion.
Ms. Silvers - Abstain, Ms. Melendez-Delaney – Abstain
Mr. Law – Yes, Mr. Sears – Yes, Ms. Brown – Yes, Mr. Stewart – Yes, Ms. Lartigue – Yes

g. School Committee Subcommittees
Superintendent Regulbuto proposed adding a curriculum subcommittee. The curriculum subcommittee will provide the initial review and recommendation on new and substantially revised curriculum. Superintendent Regulbuto stated that she did not feel comfortable responding directly and was asking permission from the school committee to respond to this request.
Carl stated his concern about the superintendent coming to the school committee for permission to respond to requests from the towns. He recommended for this time to bring forward a motion.

Ms. Silvers moved that the school committee authorize Superintendent Regulbuto to respond to the request from the Town of Monterey. Ms. Lartigue seconded the motion. There was no further discussion and the motion was approved unanimously.
