5. **Presentation/Updates:**

A. Mr. Hastings introduced Ms. Regan Campbell, middle school math teacher. Ms. Campbell spoke about the SMART (Strategic Memory and Reasoning Training) Brain Study Program she is using with students this year. She explained that the program helps students use frontal lobes, which are the last area of the brain to develop. This method helps students derive a deeper understanding and is a strategy program that the students can use for all of their classes.

In the discussion that followed the presentation, Ms. Silvers requested that Principal Devoti check into expanding this program. Mr. Devoti and Ms. Regan explained that there are other teachers involved, but they need to be very careful about what they share, due to proprietary issues. Mr. Devoti said that a subsequent presentation will be forthcoming, and he noted that Mr. Farmer is using a similar approach from another source and will present in the near future.

B. Financial Literacy – Ms. Campbell explained the financial literacy class that she is teaching this year. She noted that at the end of the course, students can take a test for the W!SE (Working In Support of Financial Education) Financial Literacy certification. There is no cost for participation in the program. Ms. Silvers disclosed that she is a consultant with W!SE, and she noted that the young woman who manages the program for W!SE is Mt. Everett graduate, Andrea Campbell.

Mr. Hastings stated that his charge to the administrators is to create an environment to encourage teachers like Ms. Campbell to do different / innovative things.

C. Early Childhood Task Force Report – Ms. Silvers reported that the members have been doing phenomenal research, but they now believe that they will need additional time to complete their work. They had hoped to make a full report in December in order to be ready for the budget process. The group will present a preliminary report on items that may impact the FY 2015 budget in December. They also plan to go into each of the District’s communities to gather additional input from parents.

D. FY 2012 Audit: Mr. Tom Scanlon, Jr. reviewed the results of the District’s FY 2012 audit. He stated that the District had made a good improvement since the FY 2012 audit by hiring a consultant and improving controls. He pointed out areas of concern, including post-employment benefits. He suggested that the District consider billing on a pro-rated basis, per a law which was passed in 2011. For anyone retiring after January 1, 2011, the law allows the District to bill for a portion of a retiree’s health insurance benefits to another public entity that the retiree worked for prior to coming to the District on a pro-rated basis. He suggested that the District make note of anyone who would come under that law when they are hired and keep a “tickler” file containing that information.

Mr. Scanlon encouraged the District to do the following:
- stay on top of the declining revenue problem in the school lunch area;
- add a lot more detail in journal entries;
- add internal reconciliation for how money is taken out in payroll for health insurance;
- have an additional person look at the payroll.
Mr. Scanlon reported that the District had achieved an “Unqualified Opinion”, which bond companies and some grant givers care about. Scanlon & Associates will start the District’s FY 2013 audit in January or February.

E. Mr. Hastings introduced Ms. Jill Lipsky, who had asked to speak to the Committee regarding the nonprofit groups Hearts of the Father and Peace Through Community. Ms. Lipsky explained the work done by the two organizations, and she requested that consideration be given to partner the school with either organization to help with projects they sponsor in Ghana. Although the School Committee members were generally positive about the projects, they asked that Ms. Lipsky work with Mr. Hastings to clarify exactly what the school’s role would be and to further explore possibilities.

6. **Business**
   A. Superintendent’s Report:
   Mr. Hastings distributed a paper which answered the questions the Committee had asked regarding liability insurance, as well as a list of confirmed participants in the proposed trip to Italy next summer.    Mr. Turner requested that the Committee declare the District’s Ford 1-ton truck as surplus property, as the District had purchased a new truck last spring, and no longer could use the 1-ton. Mr. Sears then moved to declare the Ford one-ton truck surplus property. Mr. Flynn seconded the motion, and it was so voted, unanimously.

   Mr. Turner reported that the District has received some insurance money for the boiler. The Buildings, Grounds & Technology Subcommittee will determine whether to repair the boiler or to replace it.

F. Collective Bargaining: Mr. Stewart noted that the union had ratified the Unit D contract. It is expected that the Committee will have the final document for its meeting in December. A vote will be requested at that time.

G. Insurance Coverage for Volunteer Drivers: Mr. Valentini recommended that the Chair choose School Committee members to meet with the liability expert at Wheeler & Taylor and report back to the full Committee.
